

## BreachPop® #3

### Information Sheet

BreachPops were designed with three goals in mind:

- 1) Lower the N.E.W. to increase operator safety and reduce collateral damage
- 2) Be simple to build
- 3) Interface with an operator's standard equipment

The BreachPop is a tamped charge container made from soft ABS plastic containing P3D Solutions, Inc's proprietary tamping medium. Our tamped casing allows for the use of less explosive materials on a given target than when using traditional breaching methods. BreachPops are designed to be easy to carry, using equipment already available, so operators never have to place charges in pockets, dump pouches, or specialty pouches. A pistol magazine pouch can hold up to two BreachPops and an M4 pouch can hold up to four. Standard BreachPops are available in 5" and 8" heights and charges can be built out to lengths ranging from 5" to 12". Custom lengths available on request.

The **BreachPop #3** will hold three pieces of 25 or 50 grain det cord in its channel, or 0.75" wide sheet explosive. This allows you to attack heavier targets while still minimizing your N.E.W. When a piece of P3D Solutions carbon is placed on the front, the BreachPop #3 acts as a pushing charge and has been shown to defeat Class I & II Metal Doors. Two linked together form a mini-nunchuk that will defeat a deadbolt/doorknob combo and still fit into your magazine pouch, even with the pushing medium on its face. Linking three creates a highly effective sliding hinge charge that will defeat wood, metal and fiberglass pull doors. The channel of the BreachPop #3 amplifies the blast wave, proving devastating on heavy metal doors!

BP#3: 12" Mini-Nunchuk  
N.E.W.: .042 LBS TNT  
MSD: 6.2'

BP#3: Sliding Hinge Charge  
N.E.W.: .115 LBS TNT  
MSD: 8.7'

8" BP#3: 8" C2 Strip  
N.E.W.: .038 LBS TNT  
MSD: 6.0'

#### Terms of Use, Warning and Disclaimer

When loaded with explosives, the BreachPop is a fundamentally dangerous product. Improper application may result in serious injury or death. P3D Solutions, Inc and BreachPop, LLC assume no liability, express or implied, from the use or misuse of this breaching apparatus. While shot data has been gathered in the development of this product, there is no warranty, express or implied, resulting from the use of said data.

Patent Pending

Easy to Build, Easy to Carry, Easy to Deploy
